

# Overwatch

Anti-theft surveillance and security fog

Overwatch is ideal for organisations that require the surveillance of closely situated areas, such as businesses, banks and retail. Adding a 1080p resolution and varifocal lens to our proven security fog device provides added security and protection.

Overwatch can be activated either automatically by onsite personnel or by a remote monitoring centre who can view the situation via the camera incorporated into the device.

## Overwatch uses proven technology

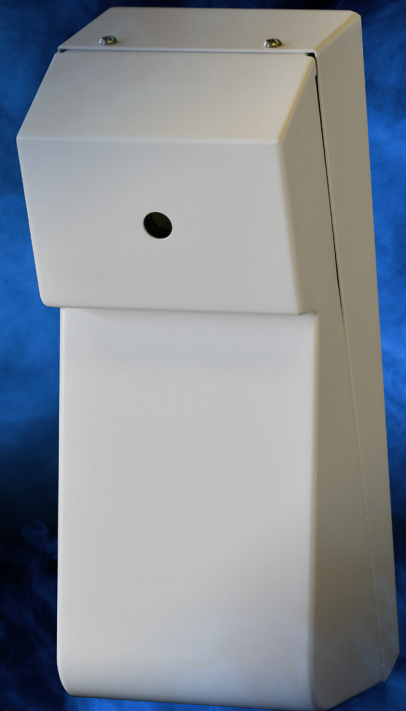

Security fogging is proven to help prevent theft and damage if an intruder has broken into a business.

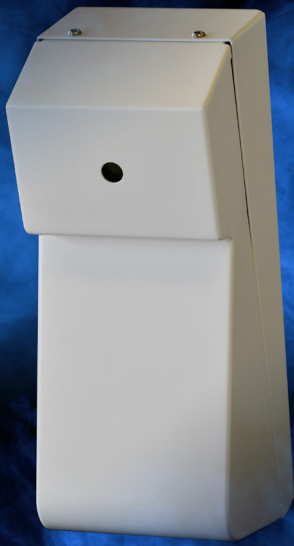

## Overwatch protects in seconds

Releasing in 0.004 seconds and at a saturable volume of up to 100m<sup>3</sup> the fog system is a deterrent that gives intruders no time to think, forcing them to retreat.

## Overwatch is safe

The security fog is harmless and safe to breathe and does not harm the environment.

## Why Overwatch fog device?

- Provides added security by surveillance of closely situated areas
- Overwatch fog generators are absolutely safe
- Can be integrated with up to three additional AXIS F Sensor Units using the F44 Dual Input Main Unit for surveillance of four closely situated areas
- Can be activated remotely via a monitoring centre
- Unique design
- We offer one of the densest fog systems on the market

## Technical Data

### Housing

Time of smoke 25 Sec

Saturable volume Max 100 m<sup>3</sup>

Power supply No

Activation voltage 1.5 – 12 Volt VCC

Ignition impulse 2.5 mJ / Ohm  
(guaranteed activation)

Current (4m Sec) for 2 Ampere  
(guaranteed activation)

Safe current 0.36 A  
(max 5 minutes)

Dimensions mm 110 x 290 x 130

Weight  
Canister 400 grams

Housing (Inc camera) 1495 grams

Operating Temp -20 C° / +55 C°

Fog colour Blue

Housing Colour White

### Camera

Models AXIS F1015 3 m / 10 ft. cable: Varifocal  
AXIS F1015 12 m / 39 ft. cable: Varifocal

Image sensor 1 / 2.8" (effective) progressive scan RGB CMOS

Lens Fixed iris: 3-6mm, F20  
with AXIS F34 / F41 / F44 in 1080p:  
Horizontal field of view: 97° to 52°  
Vertical field of view: 53° to 30°

Resolution Max. 1920 x 1200 / 1080

Wide dynamic WDR – Forensic Capture  
Range with AXIS F41: 1080p, 25 / 30 fps (50 / 60 Hz)

Minimum Colour: 0.3 lux illumination

### Shutter time

1080p 12.5 / 15 fps: 1 / 22500 s to 2 s  
with Axis F41: 1080p 25 / 30 / 50 / 60 fps: 1 / 143000 s to 2 s  
WUXGA (1920 x 1200) 25/30 fps: 1 / 143000 s to 2 s

Frame rate Max. 50/60 fps (50 / 60 Hz)

Can be integrated with up to three additional AXIS F Sensor Units using the F44 Dual Input Main Unit.
